Cross- and interdisciplinary activities and relationships play important roles in the experiences of students whose research interests and professional goals involve literacy. The GradSem formed in 2005 to meet this objective.

The group includes students at every stage of study from across the University. They meet monthly on the first Friday for lunch and a student-organized program and discussion.

The co-chairs this year are NORA MCCOOK (English), DAVID WANDERA (Teaching & Learning), CHASE BOLLIG (English), and LISA ZEVORICH (History). For information about upcoming meetings, contact Nora at mccook.3@osu.edu.
